

# THE JOURNEY *Portable Fire Pit*

- **Versatile**

Perfect for RV and tent camping, tailgate parties, outdoor events, van life, small patios

- **Efficient**

Burns for hours on a single 20lb propane tank, even at full throttle

- **Safe**

In most cases, permitted during wood burning campfire bans

- **Convenient**

Successfully replace your camp stove with the optional cast iron griddle

- **Hot**

At 84K BTUs, it's hotter than the average home furnace

- **Lifelong Dependability**

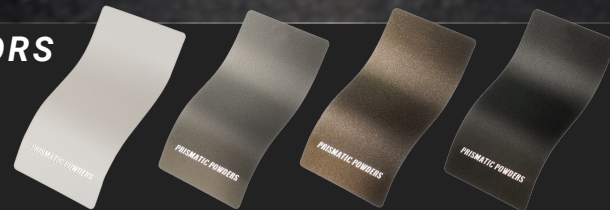

Built to handle whatever adventures you can throw at it

*Tall, natural flames thanks to patented jet technology*

When you're on the move, you want to pack only what you need, and only what keeps your life simple. Your adventures are meant to invigorate you, not introduce more complexity. When we set out to create a portable fire pit, we wanted to make it undeniably simple to use, durable, multi-functional, and above all... incredibly HOT. Introducing The Journey; a portable fire pit that sets up in less than a minute, cooks well, heats well, wears well, and travels well. Where will your Journey take you?
