THE ARBOR COLLECTION

ARBOR ACCENT FIRE TABLE

Olympic platform fire table with 2" horizontal Arbor Wood panel design. Seven sizes, three vessel materials.

MODELS & DIMENSIONS

SKU	OUTSIDE DIM. (W × L)	BURN AREA	BTU	BURNER MODEL	WT. STEEL / ALUM.
Arbor-Accent-Config48	36 × 52	32.25 × 16.25	130k / 170k	UL130 / UT170	289 / 100
Arbor-Accent-Config55	36 × 59	39.25 × 16.25	150k / 230k	UL150 / UT230	319 / 111
Arbor-Accent-Config60	36 × 64	44.25 × 16.25	190k / 290k	UL190 / UT290	341 / 119
Arbor-Accent-Config67	36 × 71	51.25 × 16.25	210k / 290k	UL210 / UT290	374 / 130
Arbor-Accent-Config76	36 × 80	60.25 × 16.25	270k / 350k	UL270 / UT350	412 / 143
Arbor-Accent-Config86	36 × 90	70.25 × 16.25	410k	UT410	462 / 161
Arbor-Accent-Config96	36 × 100	80.25 × 16.25	470k	UT470	custom

All dimensions in inches. Outside dimensions include Arbor Wood panel extension on long sides (36" wide vs. Olympic's 32"). Ledge 7.875". Vessel weights in pounds, Arbor Wood integration adds approximately 30 lbs over equivalent Olympic SKU. Sizes marked 'custom' are made-to-order configurations; contact your rep for specifications and lead time.

MATERIALS & CONSTRUCTION

<p>3/16" MILD STEEL</p> <p>American-sourced. Hand-welded in Missoula. Powder-coat finish in standard MFP colors.</p>	<p>10 GAUGE CORTEN STEEL</p> <p>Weathering steel develops a stable patina over the first 12–24 months. No coating.</p>	<p>3/16" MARINE-GRADE ALUMINUM</p> <p>Marine-grade aluminum. Lighter than steel. Powder-coat finish. Naturally corrosion-resistant.</p>		
<p>BURNER</p> <p>Warming Trends Crossfire brass burner. Solid brass. Patented jet technology.</p>	<p>IGNITION</p> <p>Match Lit · Push Button Battery · Mercury Battery · Carbon 3V Low Voltage · Platinum 24V Electronic</p>	<p>FINISH</p> <p>Powder-coat on mild steel and aluminum in standard MFP colors. Corten weathers without coating.</p>	<p>ORIGIN</p> <p>Designed, fabricated, and assembled in Missoula, Montana, USA. Made-to-order.</p>	<p>WOOD ACCENT</p> <p>2" horizontal Arbor Wood Co. thermally modified ash panel design. Cutek Oil finish. Single pattern (not variable).</p>

CERTIFICATION & PERFORMANCE

<p>COMPONENTS CERTIFIED</p> <p>Warming Trends Crossfire brass burners and gas ignition systems are certified to ANSI Z21.97 / CSA 2.41 for outdoor decorative gas appliances. The complete fire feature is fabricated in Missoula from these certified components.</p>	Fuel Inlet	3/4" I.D. Female
	Fuel Pressure — NG	7" Water Column
	Fuel Pressure — LP	11" Water Column
	Ignition Options	Match Lit (standard); Push Button Battery; Mercury Battery (burners under 250K BTU); Carbon 3V Low Voltage (battery or direct-wire, up to 360K BTU); Platinum 24V Electronic (any burner; requires 110V GFI outlet).
	Ventilation	Min. 18 sq. in. of venting on each of two opposing sides of any enclosed surround. Total min. 36 sq. in. Required for LP and NG operation.

STANDARD INCLUSIONS

- Fire table vessel — 3/16" mild steel, 10 gauge corten, or 3/16" aluminum (per order spec)
- Warming Trends Crossfire brass burner (size per matrix)
- 3/4" key valve and flex line kit
- 4" chrome key and finishing plate
- Aluminum burner plate, mounted 4" below finished top
- 4" non-marring adjustable feet for ventilation gap
- Rolled lava pebbles for burn area
- Arbor Wood Co. thermally modified ash panels in 2" horizontal pattern (Cutek Oil finish)

OPTIONAL EXTRAS

- Full Size Aluminum Cover (matches outside dimensions; sold separately; freight applies)
- Log Sets
- Glass Flame Guards
- Propane regulator with 10 ft hose
- Casters

ORDERING
