AAR.3 – 5 INSTALLATION NOTES

HARD LINE GAS SIZING & CONNECTIONS – BY OTHERS

All hard line gas piping, meter sizing, regulator selection, pressure verification, and final gas connection shall be designed, sized, furnished, and installed by a licensed plumber, gas contractor, or qualified mechanical professional in accordance with applicable codes and project requirements. Montana Fire Pits provides appliance input requirements and connection information only and is not responsible for determining gas line capacity, available pressure, pipe sizing, or site-specific utility conditions.

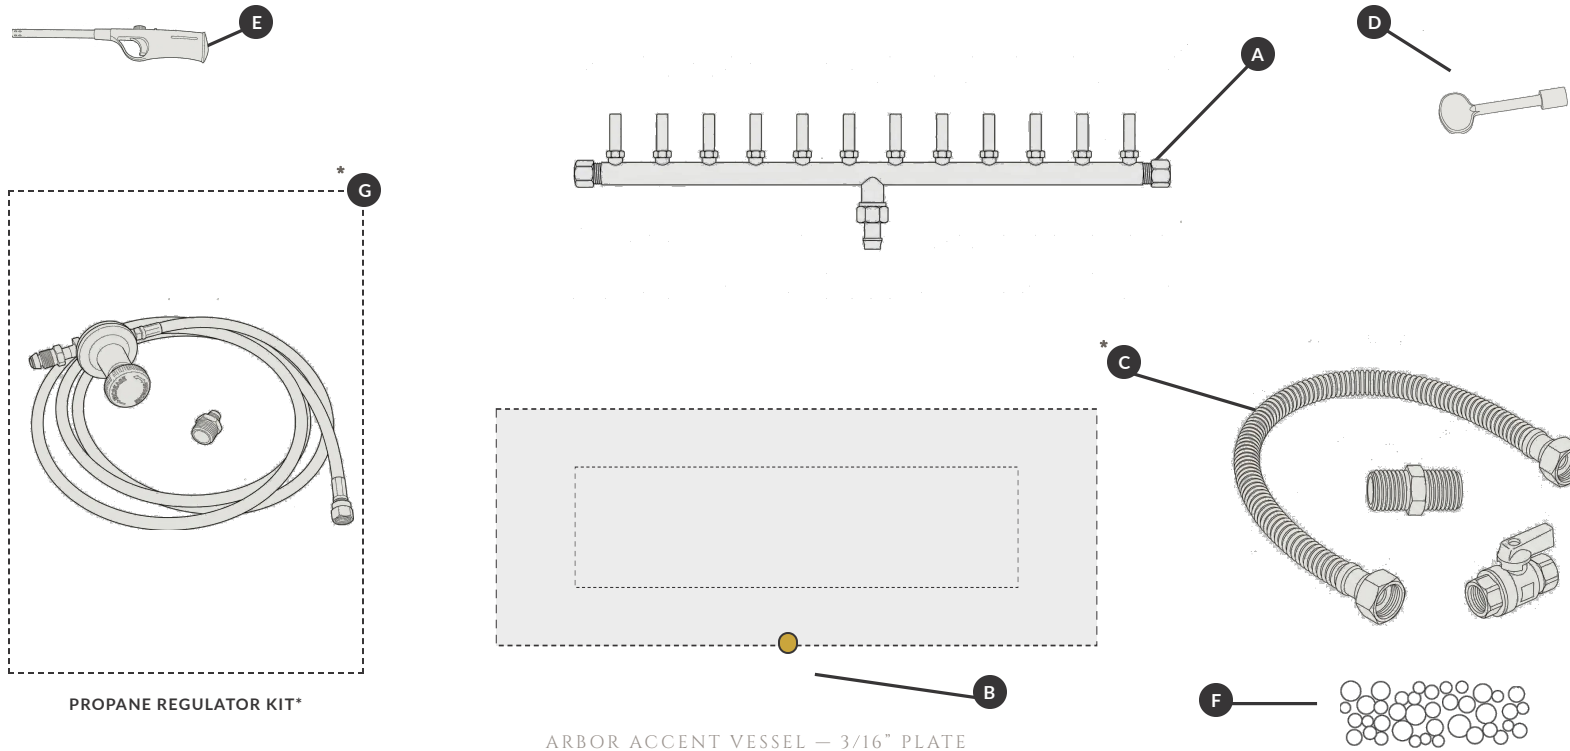

INSTALLATION NOTES

Installation shall be performed by qualified trades in accordance with all applicable local codes, project requirements, manufacturer instructions, and site conditions. The installer is responsible for verifying dimensions, clearances, substrate conditions, drainage, ventilation, access, gas and electrical connections, and final placement prior to installation. Montana Fire Pits provides product specifications and installation guidance only and is not responsible for site preparation, field modifications, code compliance determinations, or final installation conditions unless expressly included in the project scope.
